A Catalog of Our Compostable Food Packaging

A MESSAGE FROM OUR TEAM

A welcome from Écru Pak. We're thrilled to share our passion for sustainability and our range of compostable food packaging with you.

In a world full of disposable plastics, we believe in a better way. Our mission is simple: to provide high-quality, reliable, and truly eco-friendly alternatives that don't compromise on performance. We're here to help you make a positive impact on the planet, one container at a time.

WHY SUGARCANE BAGASSE?

You'll find that most of our products are made from sugarcane bagasse, a plant-based byproduct that is a highly sustainable alternative to plastic. Instead of letting this residue go to waste, we transform it into sturdy, versatile, and elegant containers. Not only is it a renewable resource, but it's also 100% compostable and biodegradable, returning to the earth without leaving any harmful toxins behind.

Thank you for joining us on this journey. Together, we can build a more sustainable future.

Pack with care, preserve the planet we share.

Our Commitment to the Planet

Choosing our products is about more than just finding a food packaging solution; it's about partnering with a company that puts the planet first.

- **100% Compostable:** Our products are made from sugarcane bagasse and are certified compostable, returning to the earth without a trace.
- **A Circular Solution:** By transforming a waste product into a valuable material, we create a truly sustainable, closed-loop system.
- **Eco-Friendly Performance:** Our products are not only good for the environment but are also durable, oil resistant, and can handle hot and cold food.

We believe that small, everyday choices can make a huge collective impact. Thank you for choosing to make a difference with us.
